TENDE undersigned are prepared to introduce into use in Tendessee W. E. CHILDS & CO.'S PATENT ELAS-TIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Comonles, and the public to examine its superiority over other ARCHITECTS AND BUILDERS should not fail to ARCHITECTS AND BUILDERS should be an in the examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will reset the action of the atmosphere in every climate. It is impervious to water, clearle, and flexible. It contracts and examples with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to

phere, and will neither evaporate, crata hor to, and a to its durability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abandantly proved, and we will warrant it water-proof. We will engage to put our Hoofing on over ordinary good sheathing, old shingles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet, it being far cheaper than any Roof of the old style, and we are sure it will give better satisfaction.

cheaper than any Roof of the old style, and we are sure it will give better satisfaction.

It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the tin is rasted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two dilars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Roofing will be found to be the best theng for covering large Roofs where they are exposed to fir—such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steambott Decks, fir —such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, itstion Houses, Steambott Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will been out without igniting.

The unrance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, insure Buildings with Boofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tin.

The Cement will be furnished to those at a distance with directions for using. rections for using.
Orders sent to the undersigned, through the Postoffice, will be promptly attended to J. T. NATHURST,

No. 24, Spruce Street. TESTIMONIALS AND REPERENCES.

OFFICE BUCKEYE STATE INSURANCE COMPANY, TO ALL WHOM IT MAY CONCERN: This is to certify that I have examined specimens and Roofs of W. E. Childs & Co.'s Elastic Fire and Water-Proof Cement Roofleg," and be Here it to be eminently superior to any other kind of Roof ing in use. I was an eye witness of a severe trial of one of these Boofs from a large volume of flame from an a ijoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond all expectation, and cavel the building. T. M. HANKELL,

WASHIN BYON, D. C., T Feb., 168d. {
Siz: I have used your Fills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regula-ting action on the liver is quick and recided, consequently they are an advirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.
Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

hey have done my wife more good than I can tell you. She had been ick and pining away for months. Went off to be declored at great expense, but got no beiter. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two colldren of bloody dy-entery. One of our neighbors had it bad, and my wife cured bim with two doses of your Pills, while others around us paid from five to twenty delices doctors' bills, and lost much time, without being cured entirely even then. a medicine as yours, which is actually good and honest, will be prized here. Reason why this Machine is Universally Preferred over All Others.

1 Because it is the only Sewing Machine in the world ever invented, so constructed as to fully meet the demands of families for general 2 It is very simple and is never liable to get

out of order. 3 It makes a seam which will not rip, though every third stitch is ent. 4 It is not a Shuttle Machine.

5 It sews with two needles, making any ength stitch desired. 6 It sews from two ordinary spools, and thus all trouble at winding thread is avoided; while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work. 7 The same Machine runs silk or linen

thread, and common spool cotton, with equal 8 This Machine will sew in the sleeves of a coat with the same ease and facility that it sews a straight seam.

9 This Machine can be run to make one thousand five hundred stitches per minute. 10 The seams are as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing or otherwise. 11 The stiches made by this machine are more beautiful than any other made either by hand or machine. The price of these Machines at office in New

York, range from \$75 to \$150: an additional charge of \$10 only is made on each machine over New York prices at office in Nashville, to defray expenses of importation, &c., to Nash-R. H. BROCKWAY, Sec'y., Nashville Sewing Machine Company.

CHOICE FARM LANDS FOR SALE. THE ILLINOIS CENTRAL R. R. COMPANY

IS NOW PREPARED TO SELL ABOUT 1,500,000 Acres of

IN TRACTS OF 40 ACRES & UPWARDS. ON LONG CREDITS AND AT LOW B TES OF INTEREST. THESE lands were granted by the Gover ont to aid in I the construction of this Road, and e among the richest and most fertile in the world. They extend from North-east and North-west, through the middle of the State, to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly prairie, inter-spersed with fine groves, and in the middle and Fouthern sections timber predominates, alternating with beautiful The climate is more healthy, mild and equable than any other part of the country—the air is pure and bracing, white living streams and springs of excellent water abound.

Bituminous Coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at \$2 to \$4 per ton-and wood can be had at the same rate per cord, Building Stone of excellent quality also abounds, which can be procured for little more than the expense of trans-The great fertility of these lands, which are a black rich

much more profitable, at the prices asked, than those more remote at government rates,—as the additional cost of ransportation is a perpetual tax on the latter, which must be borne by the producer, in the reduced price he receives for his grain, &c.

The Title is perfect—and when the final payments are made, Deeds are executed by the Trustees appointed by the State, and in whom the title is vested to the purchasers, the State, and in whom the title is vested to the purchasers, which convey to them absolute titles in Fee Simple, free and clear of every incumberance, lien or mortgage.

The prices are from \$6 to \$30; interest only 8 per cent.

Twenty per cent will be deducted from the credit price Those who purchase on long credit, give notes payable in 2 3, 4, 5 and 6 years after date, and are required to im-prove one-tenth annually for five years, so as to have onehalf the land under cultivation, at the end of the time.

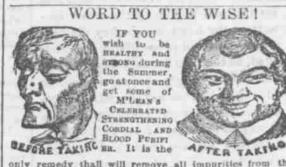

Competent Surveyors will accompany those who wish to examine these Lands, free of charge, and aid them in

naking selections.

The lands remaining unsold are as rich and valuable as those which have been disposed of.

Sectional Maps will be sent to any one who will enclose fifty cents in Postage Stamps, and Books or Pamphlets coninty cents in Postage Stamps, and Books or Pamphlets containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Hailroad Lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, etc.,—or any other information—will be cheerfully given on application, either personally or by letter, in English, French, or German, addressed to

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated ficuland Professor, Socrhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success arong them, I now offer it to the American public, knowing that its truly wonderful nedicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, rais-ing up the drooping spirit, and, in fact, infusing new boalth not vigor in the system.
